I use these libraries via static linking. For this I have to pass the correct libraries to the linker. I normally do this with environment variables. But now I want to be able to build my program in a makefile and I was wondering if I can do it by including the linker commands from the.h files. My.h file looks like this #ifndef GL_HEADER #define GL_HEADER #include #include #include extern GLint GL_API_Version; #endif My makefile looks like this CXX = g++ LIBS = -L/usr/X11R6/lib -lGL -lGLU SRC = main.cpp all: $(SRC) $(CXX) $(LIBS) $(SRC) -o

Download

Discografia completa mp3, Videos, fotos, ilustraciones y discografias de ídolos latinos muy recomendadas. '60 Argentine rock.. It features some of the most important santinhos ever made by Alberto Castillo. Nov 14, 2010 Discografia. com - Discografia de Prácticas Escolares.
